GO Term

- positive regulation of natural killer cell mediated immunity
- regulation of natural killer cell mediated immunity
- natural killer cell mediated immunity
- positive regulation of lymphocyte mediated immunity
- positive regulation of leukocyte mediated immunity
- regulation of lymphocyte mediated immunity
- regulation of leukocyte mediated immunity
- positive regulation of immune effector process
- lymphocyte mediated immunity
- leukocyte activation involved in immune response
- cell activation involved in immune response
- leukocyte mediated immunity
- regulation of immune effector process
- positive regulation of innate immune response
- adaptive immune response
- positive regulation of response to biotic stimulus
- regulation of innate immune response
- positive regulation of defense response
- regulation of response to biotic stimulus
- immune effector process
- positive regulation of response to external stimulus
